

Site Base Management Team Parent Member Application

The Site-based Management Team of ITES is comprised of teachers representing each grade level and department, administration and parent representatives elected by the parent community. The members of the SbMT work together to implement plans and processes that promote learning in the most successful ways possible, and create the most effective educational environment for each and every child at ITES.

This issues discussed by the ITES SbMT are varied and wide-reaching. Together we plan how the state and local funding for the school will be spent annually, and recommend suggestions to the PTO for additional school needs. The team submits requests to the county for on-going capital improvements, and decides how to best implement state and county policies within our school. We provide feedback to the staff on activities that parents find helpful in working together, and look for new ways to increase the effectiveness of our dedicated teaching staff. We brainstorm better ways of making our school feel focused on needs of each and every individual. We look for ways of supporting the efforts of the teachers within our homes, and the family within the school.

Please take a moment to visit our school website and view our past minutes of our meetings.

Name: _____ Current Grade Level of Your Child: _____

Home #: _____ Cell #: _____

Email Address: _____

1. Are you willing to allow your name or phone # to be published and available on our website as a point of contact for other parents? _____
2. Are you available to meet once a month at 2:30-4:00? _____
3. Are you able to commit to a 2 year term? _____
4. Are you comfortable working on a team in a consensus-building environment? _____
5. Are you willing to bring comments and concerns brought to you from parents to your Site-Based Management Team meeting and then follow up with the parents afterward? _____
